

SUPPORT FOR STUDENTS IN HEALTHCARE TRAINING

SMART Workforce Center / Job Training Center

Are you attending school towards a career in healthcare? CNA, MA, ADN, LVN, RDH, Medical Office Specialist?

The SMART Center and the Job Training Center provide services to students like you who are preparing for a career in healthcare. As you complete your program, we can help with the following:

- **Resume and Interview Preparation**

Receive coaching so you feel confident talking about your skills and talents and sharing them in a resume.

- **On-the-Job Training (OJTs)**

An On-the-Job Training (OJT) is a great way for someone without a lot of direct work experience who is finishing school to get a job. The employer hires you and while they train you, we pay half of your wages. It's a win-win.

- **Connections with Key Employers**

Our staff knows our local healthcare employers and can help you discover who is hiring and make that introduction.

- **Testing and Licensure Fees**

We are happy to assist with paying for industry related fees for testing and licensure exams.

- **Required School/Work Supplies**

Each profession has its own requirements for supplies. From stethoscopes to scrubs.

When is the right time to connect with your local workforce representative? The sooner, the better!

The sooner you contact us, the sooner we can help support your career goals. We realize your schedule is packed, so we are happy to meet via Zoom, over the phone or in person - whatever works with your schedule.

Call or email your center to talk to a staff member today!

- Del Norte County: 707-464-8347

SMART Workforce Center & Job Training Center

The SMART Workforce Center and Job Training Center are non-profit organizations that provide services related to career exploration, training and job search to residents of Del Norte, Shasta, Siskiyou, Tehama and Trinity Counties. We work closely with local employers to help them with hiring and talent development.

Feel confident interviewing and talking about your training and talents.

Connect with employers in your field.

Feel supported going from training to work.
